Testimonials

“This intensive with Dr. Plasker has been the best investment of time, energy, and money that I have ever invested in my career. The small group environment allowed for very personal coaching which will help me to reach more people with the Chiropractic message. As Chiropractors, our hands and voices are our most important tools. Thanks to Dr. Plasker, for loving Chiropractic and Chiropractors enough to step up to give us the jump start we need to press the limits and take a stand for our highest possibilities as Chiropractors and professionals.”

Dr. Glenn Lang – Toronto, Canada

“Wow! What a life changing weekend that allowed us to grow in our communication skills and witness the rest of our small group making amazing breakthroughs. We have gained the confidence we need to speak more effectively about chiropractic in any setting. We feel we have a privilege to share chiropractic with as many people as possible and now we have the ability to do so much more effectively. The Intensive was a great investment in ourselves. Now our voices will be heard in a much bigger way. Thank you Dr. Plasker.”
